

1st March 2021

MARINE NOTICE

The Seychelles Maritime Safety Authority wishes to advise all relevant stakeholders that as of 2021, the Certificate of Evidence issued by the Authority would be charged a fee of \$150.00.

This is in line with PART II of the schedule under the Merchant Shipping (Registration of Non-Government Ships) Regulations 1995 whereby it states that all Statutory Certificates will bear a fee of \$150.00. This fee is additional to the Annual Tonnage Fee collected annually and although it was required to be charged and collected alongside the Annual Tonnage Fee, the past Administration was not implementing it.

With the transformation from being an Administration to an Authority, SMSA is required to implement both Fees in order to be in compliance with the aforementioned Regulations. However, the said certificate shall only be issued upon request.
